525 N Cascade Ave, COS 80903

Anyone and Everyone are
welcome to this FREE event!
No age or skill requirement!
It's a drop-in event so come
and go as you please

For more info

01/28
Backgrounds

We will be focusing on making background ATCs. These won't be complete (unless you feel like it is) and can be used in tandem with next month's topic. Learn some various techniques to make one background at a time or a whole bunch in one shot!

02/25
Embellishments

This event will be in tandem with the previous month and we would highly recommend you bring those backgrounds to this session. Learn some different embellishment styles you can create and use for your cards. Simple and creative that have you looking at things a little differently!

03/30
Storage/Displays/Tools

You either have a collection or you want to start a collection of cards but don't know where to start. We will have examples and, as supplies last, a few freebies for you to grab! Maybe a binder with a card page insert, or a cute little frame to display your FAVORITE art piece in. If you don't care to collect cards and just want to create, we will have some fun crafty tools for you to play around with!

04/28
Shaker Cards

Shaker Cards were a **HUGE** hit last year and eagerly asked for this year. Not only do we have layers for this card but moving parts inside?! Fill these little windowed cards with glitter, beads, and trinkets, and see them shake!

05/26
Art Therapy

May is Mental Health Awareness Month and we are emphasizing Art Therapy in ATCs! Having trouble communicating or processing emotions? We can teach you to use this method to help you maintain your well-being. We have personally done this for years and love the connection or impact a small card can have to convey a message. These cards don't have to be shared or you can take a sheet home to work on privately. Your health matters.

06/30
Clear Tape

A new ATC theme using Clear Tape! Glitter, stickers, beads, embellishments...if it can stick, it could work! Join us for a little experimentation and have fun playing around with all our material options.

07/28
Mixed Media

Learn to layer your choice of media switching between watercolors, acrylics, pens, crayons, colored pencils, papers, stickers, embellishments, and more!

08/29
+ / - Space

Some Art Basics in a not-so-basic way. Learn the cool designs of playing with positive and negative space when it comes to ATCs. Simple, yet a complex result worth experiencing!

09/23
Carton Faces

Ever had so many egg cartons that you aren't sure what to do with them? Well, let's recycle them! Turn them into 3D faces or figures to create some cute eye-popping art.

10/28
Sew Cool

Sew Sew Cool! Though we aren't great at Sewing, we want to include this unique and fun method to introduce various media that ATCs can be created with. Try your hand whether it's your first time, tried it before, or an expert willing to share your expertise with others. Let's all learn and have fun!

11/24
Recycle

Stretch your mind and experiment with what's around you. We will get to try out materials you may see every day around your house and use cheap or free materials to create spectacular results. We will have a unique challenge where you will be able to win something!

12/29
Window Cards

Create little scenes through your window using either 1 layer to multiple layers. Multiple formats and your imagination can take it anywhere. Does your window look out into the street? Does it look out into an alien planet? Does it focus on a person? What is beyond your window?
